

Ongoing and Planned PrEP Open Label, Demonstration and Implementation Projects, October 2019							AVAC Global Advocacy for HIV Prevention
Trial/Project	Sponsor/Funder	Type/Category	Location	Population	Design/key questions	Status	Status Details
DREAMS	PEPFAR, BMGF, Nike Foundation	Implementation Project	Kenya, South Africa, eSwatini, Uganda, Lesotho, Tanzania, Zambia, Zimbabwe	AGYW	Partnership to reduce HIV infections among AGYW; extends beyond health sector to address poverty, gender inequality, sexual violence, lack of education; PrEP implementation component included.	Ongoing	Ongoing.
IMPAACT 2009 (DAIDS ID 30020): Pharmacokinetics, Feasibility, Acceptability and Safety of Oral Pre-Exposure Prophylaxis for Primary HIV Prevention during Pregnancy and Breast Feeding in Adolescents and Young Women	International Maternal Pediatric Adolescent AIDS Clinical Trials (IMPAACT) Network	Observational study	Zimbabwe, South Africa, Malawi, Uganda	Adolescent girls and young women aged 16-24 years	Parallel, observational cohort study of HIV-uninfected pregnant adolescents and young women (aged 16-24). The study is designed to characterize adherence over time among women who initiate once daily oral PrEP during pregnancy and continue in the first 6 months following delivery, and to compare pregnancy outcomes among women who take PrEP and women who decline PrEP during the antenatal period.	Ongoing	Ongoing; started February 2019.
MTN-034/IPM 045/REACH	MTN; IPM; NIH; NIAID, NIMH, NICHD	Clinical Trial	South Africa, Kenya, Zimbabwe, Uganda	AGYW aged 16-21 years	A Phase 2a Crossover Trial Evaluating the Safety of and Adherence to a Vaginal Matrix Ring Containing Dapivirine and Oral Emtricitabine/Tenofovir Disoproxil Fumarate in an Adolescent and Young Adult Female Population	Ongoing	Ongoing; started January 2019.
Partners Demonstration Project	NIMH/NIH, USAID and BMGF	Demonstration Project	Kenya, Uganda	Men, Women, Serodiscordant Couples	Evaluates HIV prevention preferences among approximately 1,000 HIV serodiscordant couples, adherence to PrEP and ART and interface of reproductive health priorities and ART-based prevention. Will implement PrEP as "bridge" to ART, providing PrEP to HIV-negative partner until the HIV-positive partner has initiated ART.	Completed	Completed.
Partners PrEP Program (PPP)	University of Washington (Sponsor); NIMH (Funder)	Implementation Project	Uganda	Serodiscordant Couples	PPP is a stepped-wedge cluster randomized trial in 12 public health clinics in the Kampala, Uganda area. All clinics began engaging and recruiting couples in June 2018; four facilities began delivering PrEP in December 2018, four additional facilities will begin in June 2019, and the last four will begin by the end of 2019. The primary objective is to determine the effectiveness of delivering integrated PrEP and ART at public clinics on 1) PrEP initiation, 2) PrEP adherence, 3) ART initiation, and 4) ART adherence among HIV serodiscordant couples. Secondary objectives include determining the degree to which PrEP-taking is a modeled behavior and its potential contribution to ART initiation and adherence and micro-costing.	Ongoing	Ongoing; started June 2018. Expected completion in 2020.
PEPFAR	PEPFAR	Implementation Project	Botswana, Cameroon, China, Côte d'Ivoire, Democratic Republic of Congo, Dominican Republic, eSwatini, Ethiopia, Haiti, Kenya, Laos, Lesotho, Malawi, Mozambique, Namibia, Nigeria, Rwanda, South Africa, Tanzania, Thailand, Uganda, Ukraine, Vietnam, Zambia, Zimbabwe	At risk individuals	Provides PrEP to adults and adolescents at risk of HIV infection.	Ongoing	Ongoing.
SEARCH (Sustainable East Africa Research in Community Health)	BMGF	Demonstration Project	Kenya, Uganda	People at high risk of HIV	This is the PrEP extension of the SEARCH study which is underway in over 320,000 participants in Kenya and Uganda.	Ongoing	Ongoing; recruitment began April 2017.
