EPIC-NSW Trial- Expanded PrEP Implementation in Communities	Kirby Institute	Demonstration Project	Australia	MSM, Transgender Individuals, Serodiscordant Couples, Men & Women at High Risk	The EPIC-NSW PrEP study started out with 3,700 places available through a number of public sexual health clinics and selected GP practices. Focusing on high-risk, mostly gay and bisexual men, today this study is the only uncapped clinical trial of PrEP in Australia, and is enrolling beyond the original 3,700 spots. It has also opened a 200 place study extension in the ACT.	Ongoing	Ongoing; started March 2016. Expected completion March 2019.
Pre-exposure Prophylaxis Expanded (The PrEPX Study)	Burnet Institute, Alfred Hospital and Monash University; funded by Victorian Government, Alfred Health and the Victorian AIDS Council	Demonstration project	Australia	MSM, Transgender Women, Transgender Men, Women, Men, Serodiscordant Couples	This is a multi-site, prospective, open-label, population-level PrEP demonstration study, the primary aim of which is to determine whether the use of daily PrEP by 2,600 Victorians who are at high risk of HIV infection will reduce the number of new HIV infections in Victoria in the following one to three years. The study has now expanded to open 600 additional places in Victoria, 100 in Tasmania, and 500 in South Australia.	Completed	Completed; no longer providing PrEP to former participants.
PRELUDE Study	Kirby Institute	Demonstration Project	Australia	High Risk Individuals	To look into how clinics can provide PrEP. It will study whether people find it easy and agreeable to take PrEP every day, why they take it, what it's like to take it, and whether it changes how they have sex. It will study how easy it is for doctors to use it with their patients, and what resources are necessary to make PrEP available.	Completed	Completed; no longer providing PrEP to former participants.
PrEPIT-WA Demonstration Project	WA AIDS Council, the Department of Health, and the Kirby Institute	Demonstration Project	Australia	TBD	WA AIDS Council is undertaking a 2000 place PrEP trial. The trial will be a joint partnership between the WA AIDS Council, the Department of Health and the Kirby Institute.	Ongoing	Ongoing; started November 2017.
The QPrEP Demonstration Project	Queensland Health, HIV Foundation Queensland	Demonstration project	Australia	MSM	To assess the feasibility of PrEP provision through sexual health clinics and general practice services (with \$100 prescribers) in Queensland.	Completed	Completed; no longer providing PrEP to former participants.
The Queensland Pre-Exposure Prophylaxis Demonstration Project Expansion (QPrEPd)	Queensland Health, Queensland AIDS Council, University of Queensland	Demonstration project	Australia	High Risk Individuals	To assess the feasibility of PrEP provision through sexual health clinics and general practice services (with \$100 prescribers) in Queensland.	Completed	Completed January 2019.
VicPrEP Demonstration Project	Alfred Health in conjunction with the Victorian AIDS Council/Gay Men's Health; funded by the Victorian Department of Health	Demonstration Project	Australia	MSM, Transgender Women, Serodiscordant couples, N-PEP Users	To determine the effectiveness of PrEP in the local setting, and the factors contributing to its success. A total of 115 people at high risk of HIV infection have been enrolled, taking PrEP for up to 30 months.	Completed	Completed; no longer providing PrEP to former participants.
