Enrollment options

- Oral PrEP Course for Clinicians
  - Self enrollment (Student)

3 Complete Course

This course has four interactive lessons that incorporate mini lectures, knowledge checks, and a pre- and post-test.

Lesson 1 Learning Objectives

After completing this lesson, you should be able to:

1. Describe 7 eligibility criteria for PrEP use
2. Identify 6 indications that someone may be at substantial risk of HIV infection
3. Describe 5 contraindications to PrEP use
4. Calculate creatinine clearance
5. Determine eligibility for Oral PrEP based on creatinine clearance

Complete each lesson and lesson quiz before advancing to the Post-Test.

If you have any issues enrolling in or completing Oral PrEP for Clinicians, please contact the site administrator.
