

# Together We Are

## Why I'm **BRAVE ENOUGH** to Choose PrEP

### **"I have more than one partner"**

I am unique and doing my best to achieve my best life: work, school, & relationships. With PrEP I have one less thing to worry about: HIV. PrEP makes me feel closer to achieving my goals!

### **"My partner might be taking risks"**

I love my partner, but I don't know their HIV status, and we aren't together every minute. PrEP makes me feel confident and keeps our relationship strong AND HIV-Free.

### **"I know I should use condoms"**

Even though I know, I should use condoms and do my best, things happen. By choosing PrEP, I feel like I'm on my way to making my unique dreams a reality.

### **"My partner has HIV"**

With PrEP, I don't worry at all about getting HIV too.

### **"It's hard to protect myself"**

I don't always feel in control of what is happening to me. With PrEP, I am doing something for myself while finding the boldness to ask for what I need.

### **"I had an STI and want to be extra safe about HIV"**

In my squad, we are courageous enough to choose to stay HIV-negative. So when I got an STI, my friends suggested I start PrEP. We are in this together!

## **SOUND FAMILIAR?**

There are many reasons young people are choosing PrEP to stay HIV-Free. Ask your healthcare provider about PrEP.

# Why I'm Brave Enough to Use PrEP

HIV Negative Generation

## "I have more than one partner"

I am doing my best to get it all together: work, school, relationships. With PrEP I have one less thing to worry about: HIV. PrEP makes me feel closer to achieving my goals!

## "My partner might be taking risks"

I love my partner but I don't know their HIV status and we aren't together every minute. PrEP makes me feel confident and keeps our relationship strong AND HIV-Free.

## "I know I should use condoms"

Even though I know, I should use condoms and do my best, things happen. With PrEP and my family planning method, I feel like I'm on my way to having it all together.

## "My partner has HIV"

With PrEP I don't worry at all about getting HIV too.

## "It's hard to protect myself"

I am still learning about how to be in relationships. With PrEP, I am doing something for myself while finding the courage to ask for what I need.

## "I had an STI and want to be extra safe about HIV"

I am part of a squad that is getting it all together. We support each other. We have the freedom to choose PrEP.

## SOUND FAMILIAR?

There are many reasons young people are using PrEP to stay HIV-Free. Ask your healthcare provider about oral PrEP
