P=P
PrEP=Prevention

PrEP is here, and you can choose how you take it.
A daily pill. An injection every two or six months. A monthly vaginal ring.*

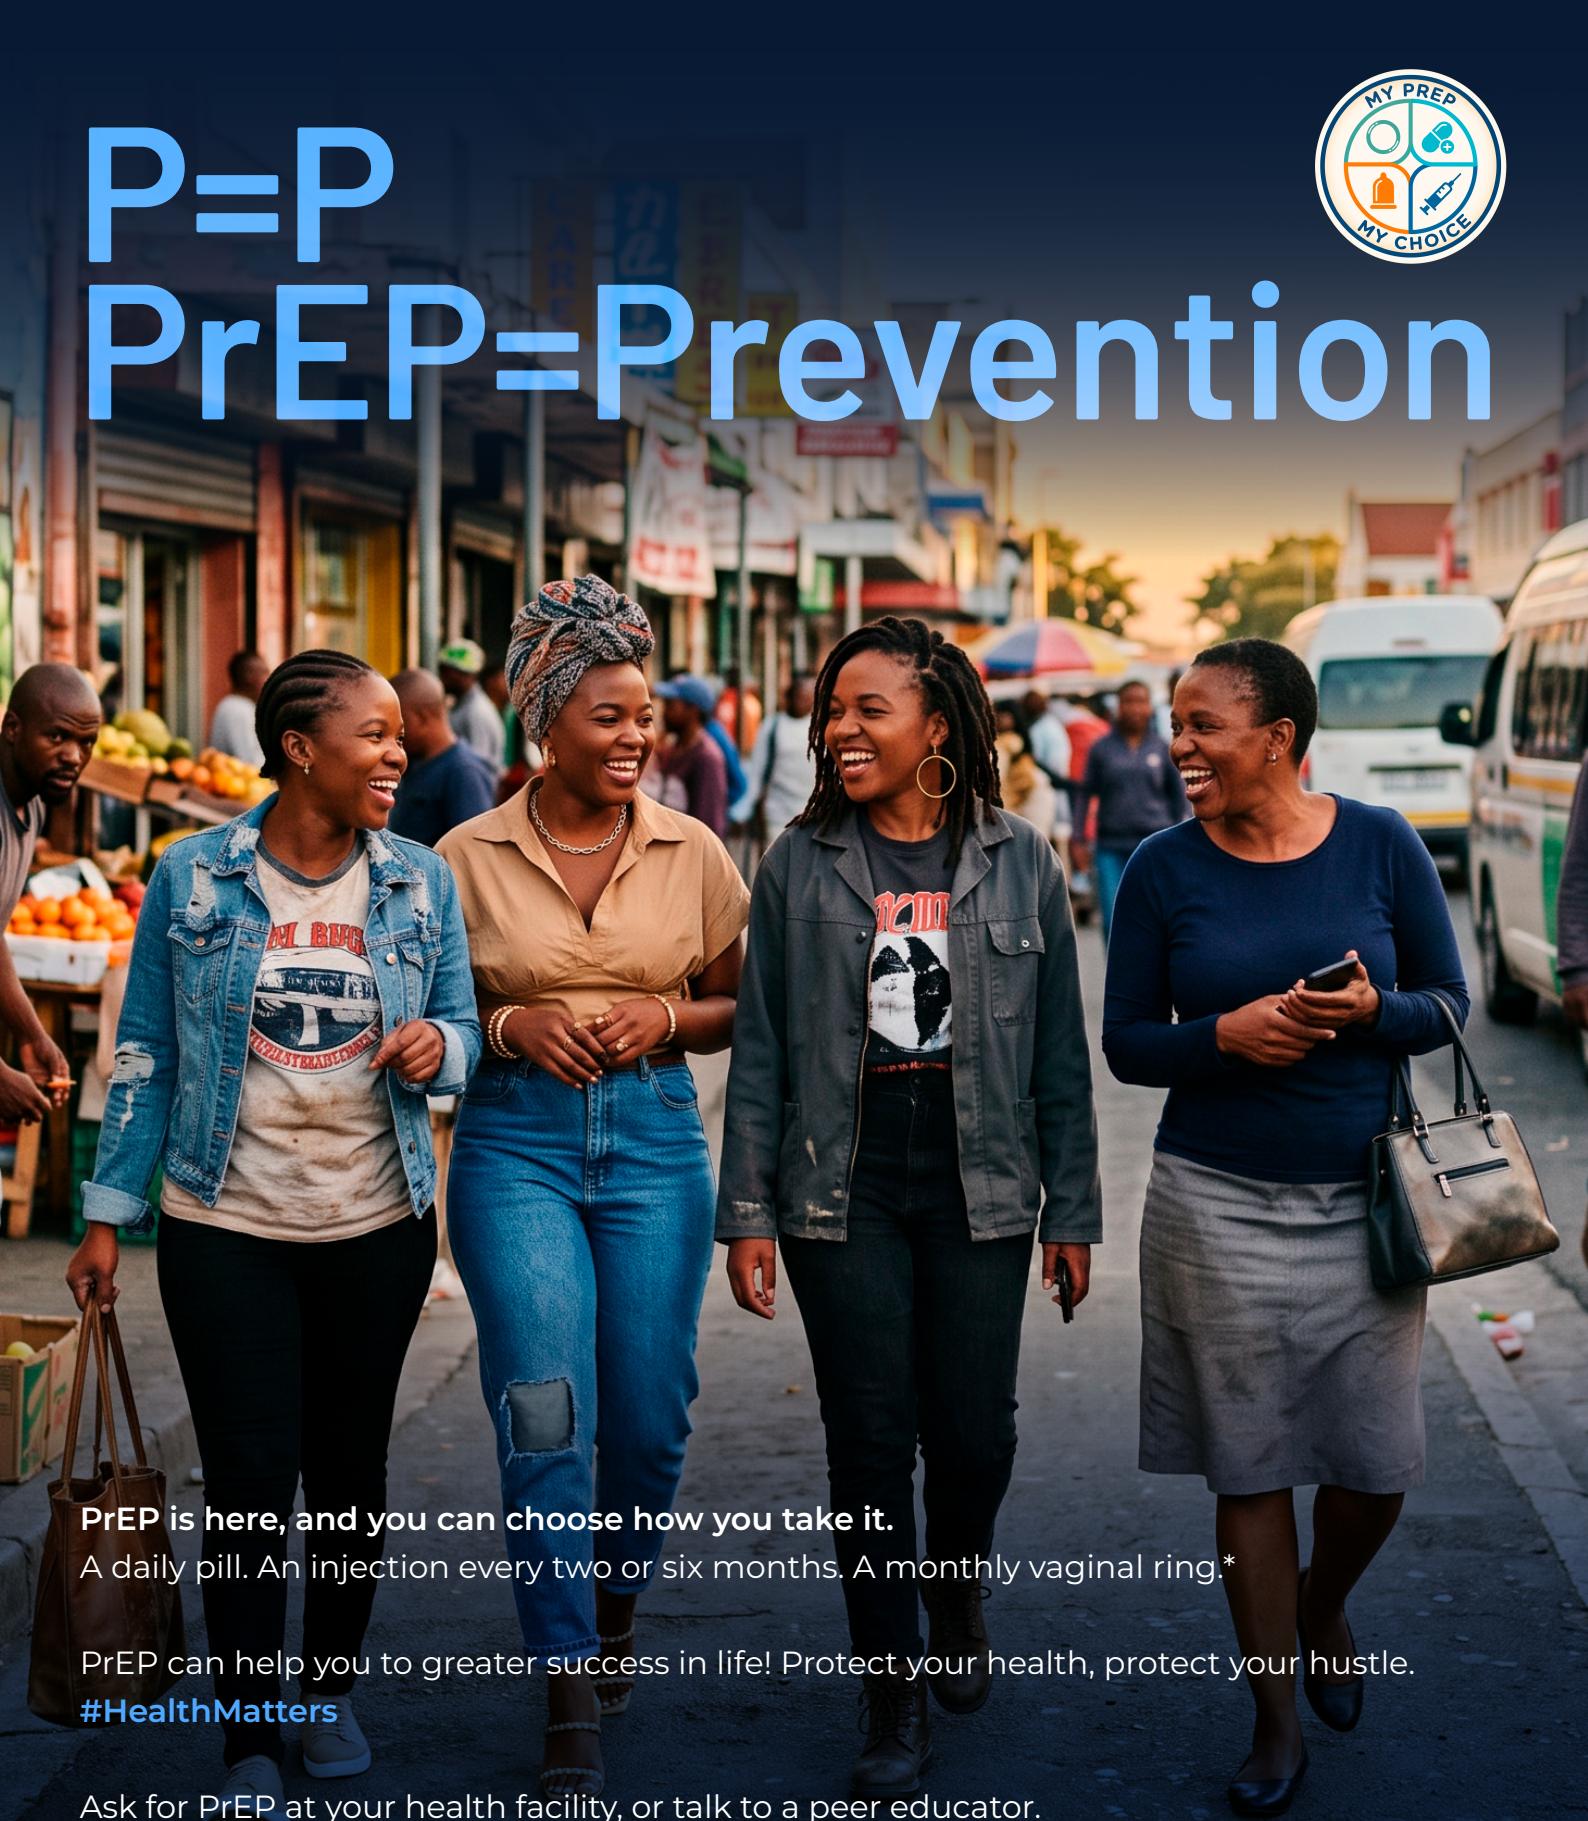

PrEP can help you to greater success in life! Protect your health, protect your hustle.
#HealthMatters

Ask for PrEP at your health facility, or talk to a peer educator.
If your first choice is out of stock, ask for another option or visit another facility.

There are different forms of PrEP. Speak to your health care provider or a peer educator about the one that is best for you. Always remember that PrEP only prevents HIV. Condoms can prevent STIs and pregnancy. If you want further methods to prevent pregnancy, there are a range of options - your health care provider can help you find the one that's right for you. **#MyPrEPMyChoice**

*Some PrEP methods may not be available in your area. Check with your local facility or peer educator.
